Chicago, IL | joe.ferber@kellogg.northwestern.edu

EDUCATION

2026 - Present **KELLOGG SCHOOL OF MANAGEMENT | MCCORMICK SCHOOL OF ENGINEERING** Evanston, IL
NORTHWESTERN UNIVERSITY
Candidate for Joint Degree: MBA, Artificial Intelligence, March 2028

- GMAT: 760 (99th percentile); Merit Scholarship Recipient
- Relevant Coursework: Tech Product Management, Applied AI for Business, Computational Thinking, Business Analytics, Data Intensive Systems
- Involvement: Kellogg AI Club; Kellogg Consulting Club; Innovation and Design Association (IDEA); Kellogg Cares

2016 - 2020 **VANDERBILT UNIVERSITY | COLLEGE OF ARTS & SCIENCES** Nashville, TN
Bachelor of Arts - Neuroscience, Psychology (Dual Major) | GPA: 3.7/4.0 | Dean's List (7 Semesters)

- **Awards:** Vanderbilt Award for Leadership Excellence: Selected as 1 of 13 students (out of 1,700) recognized by university leadership for exemplary contributions to campus life, demonstrated leadership, and lasting impact
- **Honors:** Phi Beta Kappa Honors; Alpha Epsilon Delta Premedical Honors

EXPERIENCE

2022 - 2026 **ORBUS SOFTWARE** Chicago, IL

Senior Technology Consultant (Enterprise Architecture), Jan. 2024 – Sept. 2026

- Spearheaded Digital Twin product strategy, owning product requirements and feature prioritization across a 10-person cross-functional team; enabled clients to model complex changes, reducing planning cycles by 40%
- Designed and launched a generative AI module for an Enterprise Architecture platform, translating customer feedback from 400+ end users into AI-powered features and cutting review and documentation time by 55%
- Defined cost-management product roadmaps for 35+ organizations, using data analysis to prioritize tradeoffs, eliminate up to 30% of redundant applications, and deliver $3.2M in savings
- Directed high-impact modernization for U.S. federal agencies, including DHS and NASA, analyzing 500+ applications to shape priorities and drive system rationalization

Technology Consultant (Enterprise Architecture), Sept. 2022 – Jan. 2024

- Built integration-driven workflow automation and a tailored analytics model for a regional health insurer, streamlining operations and reporting while helping secure a $1.5M+ multi-year renewal
- Developed analytics across 6 units, equipping senior leaders to make data-validated decisions on ambiguous business challenges, prioritize growth initiatives, and increase architecture maturity by 15% over two years
- Expanded strategic client accounts by identifying growth opportunities and translating customer needs into solution roadmaps, generating $500K+ in incremental revenue through trusted-advisor relationships

2020 - 2022 **EPIC SYSTEMS CORPORATION** Verona, WI

Senior Implementation Consultant - Application Manager (Healthcare), Aug. 2021 – Sept. 2022

- Standardized Epic's Organ Procurement workflow across the SDLC, leading 300+ configuration and testing activities and scalable practices for 250+ health systems, reducing onboarding time by 25%
- Orchestrated 11-hospital EMR implementations, overseeing $21.1M in budgets and cross-functional teams of 50+; led release management across timelines and milestones, delivering 11 on-time go-lives
- Built and developed customer-facing teams of 8 to 22 analysts by sharing context, coaching performance, and standardizing delivery; reduced rework and increased CSAT by 20%

Implementation Consultant - Application Coordinator (Healthcare), Aug. 2020 – Aug. 2021

- Created and scaled a new Physician Orders installation methodology, cutting 70 work hours per project, strengthening execution rigor, and driving adoption through presentations to 130 Epic staff
- Implemented role-based training and workflow redesign to improve customer experience after identifying adoption pain points across pilot sites, reducing support tickets by 30% during go-lives
